2. [] At the personal request of Representative Dante B. Fascell, arrangements were made for Agency representatives to meet with representatives of the Solar Research Corporation. Both Mr. Fascell and Mr. John Buckley, his staff assistant, were very high on this organization and said it was engaged in activities which could not be discussed on the telephone.

Present from the company were Mr. Jack Holcomb, President, Mr. Francis Short, substantial stockholder, and Mr. John Christie, an attorney associated with the company. Present from the Agency were

[] this Office. Solar Research's brochure describes its organization as "Manufacturers of Special Security and Intelligence Devices" i.e., concealed microphones, investigation units, telephone taps, etc. Also of interest is a school which this organization has set up and which is known as the National Intelligence Academy. The first session of this school will begin within the next few weeks. This brochure is being referred to the Office of Security. [] indicated they would discuss this with our people and be in touch with them at a later date. (See Memo for the Director of Security for full details.)

3. [] The case of [] in which Representative Thomas F. Johnson is interested, was the subject of discussion by the Director of Personnel, Chief of Medical Staff and the DD/S. Medical Staff has agreed to call [] in for further medical examination to determine the severity of his defect in vision and its possible effect on an Agency assignment. I advised Mrs. Kiernan, in Johnson's office, that [] was being called in for further medical examination but this did not necessarily mean we would have a position for him.
